Mr. Usman Farooq
Department Secretary

Appreciation Letter

An organization's productivity and output are closely connected to the competency of its staff. Faculty members at academic institutes play a critical role in propelling their institution to new heights through high-quality research and institutional services.

It is highly gratifying that NUST School of Electrical Engineering and Computer Science (SEECS) has successfully conducted the Pakistan Engineering Council (PEC) visit for re-accreditation of Bachelor of Engineering in Software Engineering (BESE) program. This recognition will highly benefit our students in pursuing their careers after graduation.

I highly acknowledge your valuable contribution and efforts in conducting the visit held on March 14-15, 2022. Through this letter, I express my heartfelt gratitude for your commendable hard work and devotion to the overall advancement of the institute and its students. I sincerely hope that you will continue to apply yourself with even greater zeal to elevate the stature of NUST and in realizing our vision of providing greater prospects to our students.

(Dr. Rafia Mumtaz)
Head of Department
Dept of Software Engineering
