Mr. Usman Farooq
Department Secretary

Appreciation Letter

The productivity of an organization is directly related to the competence of its workforce. At academic institutes, the faculty members and support staff play a cardinal role in taking their institution to new heights through high quality research and institutional services.

It is highly gratifying that NUST School of Electrical Engineering and Computer Science (SEECS) has successfully conducted the Pakistan Engineering Council (PEC) visit for re-accreditation of Bachelor of Engineering in Software Engineering (BESE) program. This will highly benefit our students.

I acknowledge with deep appreciation your valuable contribution and efforts in conducting the visit held on Oct 17-18, 2018. Through this letter, I warmly appreciate your hard work and dedication for the overall betterment of this institute and its students. I sincerely hope that you will apply yourself with still greater zeal and commitment to help the department and the institute alike, to move closer to our vision of providing excellent opportunities to our students.

HOD
Dept of Software Engineering
