Project Management Fundamentals

Course Completion

This certificate confirms that Khansa Karim has successfully completed the Project Management Fundamentals course, covering:

- **Core Concepts:** Defining and describing project management, understanding the project ecosystem, and identifying & meeting with stakeholders.
- **Planning & Scoping:** Setting and prioritizing goals, developing a project scope considering customer requirements, and defining necessary resources.
- **Scheduling & Execution:** Describing the time needed for project completion based on task dependencies and lengths, and utilizing effective time management techniques.
- **Teamwork & Leadership:** Defining team management skills, fostering collaboration, and understanding individual and team responsibilities.

This foundation in project management principles equips Khansa Karim with the essential knowledge and skills to navigate project implementation and contribute effectively to project success.
