TESTIMONIAL

It gives me great pleasure to write this testimonial for **Dr. Aamir Zada** who worked as a Volunteer/Intern with Excellent Output under our supervision in Covid-19 ICU (C-ICU) & Medical ICU (M-ICU) of Pakistan Institute of Medical Sciences (PIMS) for a period from 25th May 2020 to 25th August 2021.

CICU is a 10 bedded & MICU is a 9 bedded Working unit which is a part of the Critical Care Medicine Department. It is fully equipped to provide critical care services to covid-19 patients from a large area of Pakistan including the northern areas and upper Punjab. Every bed in CICU & MICU is fully equipped with mechanical ventilators and multi parameter cardiac monitors, and provides in-house Dialysis services to patients. Patients in CICU & MICU are treated using different therapeutic measures ranging from Convalescent Plasma, Tocilizumab and various other treatment options that were used worldwide during this pandemic.

Dr. Aamir Zada performance during this 1 year & 3 months in CICU & MICU has been Excellent. His bedside manner with the patients and dealing with the attendants has been Exemplary. His interactions with his peers and seniors have been amicable and beyond reproach. He took initiative in several instances in order to improve patient care and was an integral part of the team.

During his time in CICU & MICU, **Dr. Aamir Zada** observed several procedures including passing central venous lines, arterial lines, dialysis catheters, chest intubations, endotracheal intubations among many others. **Dr. Aamir Zada** has gained an experience in an unprecedented pandemic in a very amicable way. He had the ability to analyze and correlate the large amount of data available for any critically ill patient and interpret it effectively to manage the patient.

In short, I believe **Dr. Aamir Zada** is a hardworking, intelligent and dedicated professional who would be a welcome addition to any department. I wish him the best of luck for his future endeavors. Please feel free to contact me in case of any queries.
