TO WHOM MAY IT CONCERNS

It is with great pleasure that I recommend Noreen Fatima for Master's program. I have been her senior for the past to 2 years and can personally attest to her intelligence, fortitude and professionalism.

In addition, I found that she always performed her duties in an exceptional manner. She has the natural ability to express complicated and technical information clearly and concisely. Her patience and compassion will serve her well for future ventures and guarantee her continuous success. I believe enrolling for this program will be golden opportunity for her to actualize her dreams. I have the deepest personal and professional respect for her unique energy, optimism and tireless hard work. Kindly do contact me if you need any further information.

Best luck for future endeavours
