SUMMARY

I am Muhammad Adnan, and I have recently completed my MPhil in Computer Science. Eager to embark on a career in technology, I am passionate about expanding my skill set and knowledge.

My dedication to continuous learning, adaptability, and enthusiasm for technology, combined with my personal skill set, make me a valuable addition to any team. I am committed to contributing my best efforts, embracing the learning curve, and delivering results that drive success.

I am currently based in Multan. I have a flexible approach to location and am willing to adapt my residency to match the requirements of my job.
