PROFESSIONAL PROJECTS

LMS (05/2023 - 04/2024)

- <https://escuela-ray-bolivar-sosa.com/> Working on learning management system since last 3.5 years in a team where work on different modules like Referral system, Skills, Assignments, Offers, Subscription, Course Management, Blog Management, Contest Management. It is a Spanish-based product.

EditorialDumas (Crowdfunding) (01/2024 - Present)

- <https://editorialdumas.com/> In this project I provide API using Laravel. This project is a Laravel-powered API backend integrated with a React frontend. The Laravel API handles all core functionalities including user authentication, book listings, order management, and secure payment processing through PayPal and Stripe.

ShopLux (01/2024 - 07/2024)

- <https://ecommerce.escuela-ray-bolivar-sosa.com/> This fully-featured online store platform includes a robust admin panel for managing products, orders, users, and settings, alongside a user-friendly customer dashboard for tracking orders, managing profiles, and browsing purchase history. With seamless integration of PayPal and Stripe.

DIC (01/2023 - 04/2020)

- made DIC project for client using Laravel. This is my first project. Admin dashboard and products display according to categories. <https://dic.com.pk>
