● ABOUT ME

I am an associate software engineer, currently working as Laravel Developer at Wise360 Solutions. My expertise lies in developing robust, scalable web applications using the Laravel framework. I have experience developing monolithic applications with Inertia.js, REST API-based infrastructure, and robust data management solutions with MySQL

● WORK EXPERIENCE

01/02/2024 – CURRENT Abbottabad, Pakistan
ASSOCIATE SOFTWARE ENGINEER (LARAVEL DEVELOPER) WISE360 SOLUTIONS

- Build RESTful APIs with efficient JSON responses, ensuring smooth data exchange and performance.
- Use Postman for API testing, ensuring the reliability and functionality of endpoints.
- Document APIs using Swagger, providing clear and comprehensive documentation for easier integration and maintenance.
- Use advance Eloquent ORM techniques for complex queries, model relationships, and database interactions.
- Implement form validation and request processing using request class, ensuring secure and efficient data handling.
- Integrate token-based authentication system (JWT) and authorization mechanism for securing APIs.
- Collaborate in Agile environments, contributing to sprint planning, code reviews, and test-driven development (TDD).
- Enhance application performance through caching, query optimization, and efficient use of database seeding and migration strategies.
- Develop and maintain scalable monolithic applications using Laravel blade view with Inertia.js.
- Apply design patterns like repository to enhance code structure, maintainability, and scalability.

01/09/2023 – 01/12/2023 Rawalpindi, Islamabad, Pakistan
LARAVEL INTERN EXA WEB SOLUTIONS

- Learned MVC and Laravel basics like project setup, routing, middleware, and blade templating.
- Eloquent ORM and database management CRUD operations, migrations, and relationships.
- Understood request handling and validation in controllers, form validation, and responses.
- Worked on authentication and authorization, basics of Laravel's auth system.
- Development tools and best practices, artisan commands, debugging, and Git basics.

● EDUCATION AND TRAINING

15/05/2017 – 20/09/2019 Abbottabad, Pakistan
MSC (COMPUTER SCIENCE) Abbottabad University Of Science & Technology (AUST)

● DIGITAL SKILLS

PHP | OOP (Object Oriented Programming) | Laravel | MySQL | SQL | REST API | JSON | Inertia.js | React | HTML | CSS | Git

● LANGUAGE SKILLS

Mother tongue(s): **URDU**
Other language(s): **ENGLISH**
