WORK EXPERIENCE

Full Stack Developer/ PHP Developer PlanDStudios

2023 - Present

Rawalpindi, Pakistan

Achievements/Tasks

- Building dynamic, responsive, and user-friendly interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Writing clean, efficient, and scalable server-side code using PHP and Laravel frameworks.
- Designing, managing, and optimizing MySQL databases to ensure efficient data storage and retrieval.
- Developing and integrating RESTful APIs to connect front-end and back-end systems for seamless data flow.
- Ensuring the performance, quality, and responsiveness of applications by optimizing code for speed and efficiency.
- Conducting thorough testing and debugging of applications to ensure functionality, reliability, and security.
- Working closely with designers to enhance user experience and interface design by implementing best UI/UX practices.
- Monitoring the performance of web applications and troubleshooting issues as they arise to maintain optimal functionality.
- Keeping up-to-date with emerging technologies, tools, and trends, and recommending improvements to existing systems.
- Managing and collaborating on code using version control systems like Git to track changes and streamline development processes.

WORK PROJECTS

Social Authentication

- Implemented OAuth-based authentication (Google, Facebook, etc.).
- Integrated third-party login with secure token management.
- Managed user sessions and profile data synchronization.
- Ensured data privacy and secure user authentication processes.

CMS Development using Laravel (5+)

- Developed a content management system (CMS) using Laravel framework.
- Implemented features such as user authentication, role-based access control, and content creation/editing.
- Implemented caching mechanisms to optimize performance and reduce database queries.
- Focused on user-friendly admin interface and extensibility.

WORK PROJECTS

Academic Management System

- Managed student, course, and faculty databases with MySQL.
- Developed user dashboards for students, teachers, and admins.
- Automated grading, attendance tracking, and reporting.
- Integrated secure login with multi-role access controls.
- Added a fee payment and tracking system for students, with invoices, payment history, and reminders.
- Integrated a library management module to track book loans, availability, and student access to resources.

E-commerce Website Creation using Laravel (15+)

- Developed a responsive and user-friendly front-end interface using HTML, CSS, and JavaScript.
- Developed product management (CRUD) with PHP/Laravel and MySQL.
- Implemented product catalog management, including categories, product listings, and search functionality.
- Implemented shopping cart, payment gateways, and order management.
- Integrated user accounts, role-based access, and checkout process.
- Created secure payment and transaction logging system.

EDUCATION

Bachelor of Science in Computer Science

Arid University

2019 - 2023

Rawalpindi, Pakistan

Courses

- Major Subjects: Introduction to Computer Science, Software Engineering, Artificial Intelligence, OOP, Operating Systems, Programming Languages, Database System, Mobile and Web Application Development, Design Analysis Of Algorithm

HONOR AWARDS

Employee of the Month

PlanDStudios

- Honored as the **Employee of the Month** for exceptional performance, dedication, and contributions to the team. Consistently demonstrated strong work ethic, attention to detail, and a commitment to excellence. Played a key role in successfully completing high-priority projects, maintaining high productivity levels, and fostering a positive work environment. Known for going above and beyond expectations, collaborating effectively with colleagues, and delivering solutions that align with company goals.
