Projects

MS Thesis

Assessing the Effectiveness of Monetary Policy on the Manufacturing Sector in Pakistan: A Disaggregated Analysis.

- Focus on evaluating the effectiveness of the interest rate shocks on industrial output in Pakistan.
- Identifying the relevancy of price stability and exchange rate stability for industrial Sector growth.
- Assessing the distributive effect of monetary policy on the manufacturing sector in Pakistan.
- Employed a Vector autoregressive (VAR) model to analyze secondary data.

Class Project

Impact of Human Capital on Economic Growth in Pakistan (NUST)

- Assessed the relationship between human capital and economic growth in Pakistan and Germany.
- Compared how human capital contributes differently to growth in a developing vs developed country.
- Empirical analysis using multiple linear regression (OLS) by employing Time-series data.

Class Project

An Analysis of Steinbeck's Novel, "The Pearl", Through the Lens of Marxism (NUML)

Critically examined themes of class struggle, exploitation, and materialism in *The Pearl* using Marxist literary theory to explore socio-economic inequality and power dynamics (Qualitative Research).

Courses

Understanding International Relations Theory

Coursera (offered by HSE University)

Gained foundational understanding of key international relations theories including Realism, Liberalism, Constructivism, and Marxism, and their application to global political dynamics.
