ABOUT ME

You can provide I hold a BS in Software Engineering from NUML, where my passion for technology took root. My journey in the tech world began with a dynamic role at Website Warehouse Group Ltd, where I honed my skills in graphics design. Over the course of one year, I delved into creative realms using tools like Adobe Photoshop, Adobe Illustrator, Adobe Lightroom, Canva, and more. These experiences not only shaped my eye for design but also instilled in me a deep appreciation for the intersection of aesthetics and functionality.

In my current role at SpeckPro Digital as an Android Developer, I bring a unique blend of design sensibility and technical prowess to the table. Beyond my design ventures, I've also embraced the challenges of Android development, contributing to cutting-edge projects. My commitment to growth extends further as I pursue an MS in Software Engineering at COMSATS University Islamabad, fueling my quest for comprehensive knowledge and innovation.

Proficient in UI design, I've spent two productive years navigating the intricacies of Figma, a platform that has become an integral part of my design toolkit. This hands-on experience in Figma has allowed me to bring a user-centric approach to my projects, ensuring that the applications I work on not only function seamlessly but also provide an exceptional user experience. I am driven by the belief that technology should not only meet but exceed user expectations, and this ethos guides my work in both design and development.

HOBBIES AND INTERESTS

● **Book Reading**

I have a deep passion for book reading, particularly novels and historical books. Exploring different eras and narratives not only enhances my knowledge but also broadens my perspective on various cultures and events.

● **Music and Traveling**

I also have a strong love for traveling to explore new places, experience diverse cultures, and gain fresh insights. Music is another source of inspiration for me, helping me relax, stay motivated.

● **Designing and Coding**

I have a strong interest in designing and coding, which allows me to blend creativity with problem-solving. Designing enables me to create visually appealing and user-friendly interfaces, while coding helps me develop innovative solutions in the digital space.
