

# Syeda Javeria Hassan

## Professional Summary

An individual with a strong aptitude for innovation, creativity, problem-solving, and analytical thinking, with a deep understanding of computational concepts, systems, and methodologies. Passionate about exploring new ideas, improving efficiency, and contributing to research that drives meaningful advancements in technology and management systems.

## Work Experience

### Associate Website Development Intern Mar 2023 - Jun 2023

NeoDocto

- Developed an E-commerce website with key features for a seamless user experience.
- Worked on multiple projects using HTML, CSS, and ReactJS.
- Created responsive and dynamic web applications.
- Optimized front-end code to improve website performance.
- Learned modern design principles and front-end development techniques.

### Front End Developer Intern Jul 2023 - Aug 2023

Interns Pakistan

- Worked on three projects using HTML, CSS, and Bootstrap.
- Designed and improved website layouts for better user experience.
- Fixed design issues and optimized UI responsiveness.
- Gained hands-on experience in front-end development.

### UI/UX Intern Sep 2023 - Oct 2023

FleactTech

- Worked on real-world projects, improving design aesthetics and usability.
- Developed interactive prototypes and wireframes using industry-standard tools.
- Applied front-end development skills to implement responsive and visually appealing web components.

## Education

### Bachelors of Computer Science Sep 2020 - Jul 2024

COMSATS University Islamabad

CGPA: 3.03/4.00

### Intermediate Aug 2018 - Jun 2020

Army Public School and College System (APSACS)Askari XIV

ICS

Marks: 984/1100 (89.45%)

Grade: A1

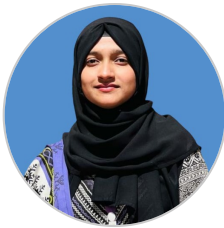

### Matriculation Apr 2016 - Jun 2018

Army Public School and College System (APSACS)Askari XIV

Science Group

Marks: 983/1100 (89.36%)

Grade: A1

## Personal Info

### Date of Birth

13-Nov-2002

### Father Name

Syed Shahid-ul-Hassan

### CNIC

37405-5279619-6

### Nationality

Pakistani

### Religion

Islam

### Gender

Female

### Domicile

Punjab

### Blood Group

O+

## Skills

- HTML/CSS
- JavaScript
- React
- Mongo DB
- React Native
- User Research
- Figma
- Prototyping
- Wireframing
- Development Testing
- Technical Documentation
- Microsoft Office
- Python
- Google Colab

## Certifications

### Google UX Design Specialization

Google  
1693508400000  
Successfully completed the Google UX Design Specialization to gain expertise in user experience design, focusing on principles, usability testing and developed skills in creating wireframes, prototypes, and conducting user research

### Website Development Expert

NeoDoct  
1677610800000  
Specialization to gain expertise in designing web application front end using different platform like HTML/CSS, JAVA, REACT

## Projects

### Final Year Project -AudioGenie

Technologies: MERN, Python

- Designed a web application aimed at simplifying audio separation for my final year project.
- Employing the MERN stack and Python, in conjunction with Figma for design, a comprehensive platform was developed to automate speech separation tasks. With its intuitive interface, both professionals and casual users can effortlessly isolate voices.
- This showcases my blend of tech skills and design finesse for impactful digital solutions.

### Data warehousing and Data Mining-HR Analytical System

Technologies: MSQl, Apache NetBeans

- Developed an HR Analytical System using SQL Server Management System for efficient data analysis.
- Enabled data warehousing to store, manage, and retrieve HR-related information.
- Applied data mining techniques to extract meaningful insights for decision-making.
- Focused on optimizing HR operations through analytical data processing.
- Enhanced reporting and visualization for better workforce management.

### FoodDash

Technologies: React Native, Firebase

- FoodDash is a dynamic food ordering mobile application developed with React Native and Firebase technologies, offering seamless performance across multiple platforms.
- Designed meticulously on Figma, its intuitive interface ensures a smooth ordering experience for users

### Share sphere

Technologies: Figma, wireframing, prototyping

- Space Sphere is a cutting edge mobile application design project, meticulously crafted through Human Computer Interaction (HCI) principles.
- From wireframing to Figma UI design, our comprehensive approach ensures optimal user experience.
- Grounded in extensive research, Space Sphere promises to revolutionize mobile interaction, offering a seamless blend of innovation and user centric design

## Soft Skills

- Problem Solving
- Critical Thinking
- Communication Skills
- Teamwork
- Adaptability
- Time Management
- Multitasking
- Decision Making
- Interpersonal Skills
- Collabroration
- Prioritization
- Flexibility

## Hobbies

- Cricket
- Gardening
- Painting
- Cooking
- Cat Enthusiast
- Badminton

## Languages

English

# Volunteer

## IT SUPPORT

Dec 2024 - Dec 2024

Pakistan Sports Complex

- Provided technical support during events, ensuring smooth operation of IT systems and resolving technical issues promptly.
- Managed data entry, reporting, and documentation using Microsoft Word and Excel.
- Assisted in setting up and maintaining IT equipment, including troubleshooting hardware and software.
- Collaborated with team members to ensure seamless coordination and efficient execution of event activities

## Blood Donation

- Donated blood to support patients in need, promoting a culture of generosity.
- Collaborated with team members to ensure smooth execution of the donation drive.
- Raised awareness about blood donation benefits, encouraging students to participate.
- Volunteered in welfare activities, contributing to community support initiatives.

## COMSATS Career Expo

- Assisted in event setup, registration, and coordination of participants.
- Guided students and visitors, providing information about companies and sessions.
- Facilitated smooth interaction between recruiters and attendees.
- Supported the organizing team in handling inquiries and resolving on-site issues.
