**HSEQ Specialist | Safety Management | Environmental Compliance | NEBOSH IGC**

## KEY SKILLS

- |                          |                            |                         |
|--------------------------|----------------------------|-------------------------|
| ✓ Project implementation | ✓ Infrastructure safety    | ✓ Project Management    |
| ✓ Hazard Identification  | ✓ Water Engineering Safety | ✓ Operations Management |
| ✓ EHS Monitoring         | ✓ Risk Assessment          | ✓ ISO Compliance        |

## RELEVANT INDUSTRY EXPERIENCE

**Site Civil Engineer** Apr 2023 – Present  
ZZ Energies Islamabad, PK

*Recruited to oversee civil engineering works for LPG plant projects. Lead teams to uphold design accuracy, structural integration, HSE compliance, and timely execution in alignment with commissioning milestones.*

- Planned daily and weekly construction activities in coordination with project schedules and milestones; identifying and mitigating potential delays or bottlenecks.
- Coordinated with mechanical, electrical, and instrumentation teams to ensure seamless integration of civil structures (e.g., equipment foundations, pipe supports, trenches) with plant systems.
- Conducted daily site inspections to ensure quality workmanship, material conformance, and compliance with health, safety, and environmental (HSE) protocols.

**Safety Officer** Jan 2021 – Mar 2023  
JAHECON WLL Manama, Bahrain

*Oversaw HSE for large-scale water and sanitation civil works in Bahrain, leading a 75+ workforce and embedding a proactive safety culture that cut incidents and ensured regulatory compliance.*

- Acted as the primary liaison between the civil engineering department, safety department and regulatory agencies, successfully ensuring 100% compliance with all safety regulations over a period of three years.
- Facilitated bi-monthly meetings between internal teams and external partners, resulting in a 30% improvement in the implementation of safety protocols.
- Identified unsafe operating procedures and mitigated them to save the organization from regulatory fines.

**EHS Engineer** Sep 2020 – Jan 2021  
Naz Al Khaleej Group Manama, Bahrain

*Managed EHS operations for civil projects, overseeing daily safety of 50+ workers and delivering data-driven reports that informed executive decision-making.*

- Conducted safety assessments on daily basis of 50+ workers in the field
- Modeled safety data to generate reports to assist company executives in key decision-making

## EDUCATION

**National University of Sciences and Technology (NUST)** Islamabad, PK  
Bachelors in Environmental Engineering Sep 2014 – Jun 2018

## TECHNICAL PROFICIENCIES

NEBOSH IGC LEVEL 3, WaterCAD, Revit, AutoCAD Civil 3D, MS Office, Primavera P6, ArcGIS
