EXPERIENCE

Site Engineer

Glorious Mall & Apartments- 2021 till date

- Supervising erection works for 18-storey high rise project including civil, structural, architectural, electrical, and plumbing components.
- Ensuring quality control and compliance with design specifications, codes, and safety standards.
- Reviewing and implementing plumbing and structural drawings.
- Coordinating with contractors for Interim Payment Certificates (IPC) and managing project billing.
- Overseeing critical structural works including raft foundations, soldier piles, anchoring, stressing, and grouting.
- Conducting quantity surveying and managing material procurement for construction activities.
- Performing material testing to ensure adherence to civil engineering requirements.
- Maintaining accurate records of cash flow, purchases, and invoices.

Site Engineer

Saif Mall & Residency- 2019-2020

- Directed site execution of 18-storey Saif Mall project with focus on structural, architectural, electrical, and plumbing works.
- Coordinated quality assurance/quality control (QA/QC) activities for compliance with engineering standards.
- Reviewed and implemented detailed construction drawings.
- Collaborated with the concrete batching plant to ensure quality and timely supply of concrete.
- Assisted in resolving technical challenges during construction to ensure smooth project progress.
- Supported cost control and progress monitoring, contributing to on time and within budget project delivery.
- Coordinated with consultants, subcontractors, and suppliers to maintain efficient project workflow and compliance.

Survey Camp Training Abbotabad -2018
