

Salah Uddin

| Computer Science| iOS Developer | Swift UI | Mobile App Development| C# | JavaScript | React JS | Database|

SUMMARY

Proficient in Computer Software with practical experience in Windows applications, web-based systems, SQL backend development, and iOS mobile applications using Swift UI, with a strong focus on data management, efficient querying, and seamless cross-platform application integration.

WORK EXPERIENCE

React JS Front End Web Development Internship

Tech net Group Rawalpindi | July 2024 – Oct 2024

- Engineered responsive and high-performance user interfaces using **React.js**, optimizing component rendering and improving page load times for data-driven web applications.
- Implemented **form validation, state management, and reusable components**, streamlining front-end development workflows and reducing UI-related bugs by approximately 20%.
- Actively participated in **daily stand-ups and sprint planning**, translating product requirements and design specifications into scalable, maintainable front-end features.

WordPress Developer Internship

Barani Institute of Information Technology (BIIT), Rawalpindi | August, 2025 to Sept, 2025

- Assisted in the development and customization of **WordPress websites**, working with themes, plugins, and basic content management.
- Performed basic **quality checks** on website layouts, content, and functionality to identify and fix common issues.
- Learned and supported the **complete website lifecycle**, including setup, content updates, deployment, and routine maintenance.

TECHNICAL SKILLS

- Languages: Swift UI, C# ASP.Net, SQL.
Backend & Data: ASP.Net C#, SQL SMS.
- Tools & Platforms: Git, GitHub, VS Code, Visual Studio, Xcode Swift UI.

FEATURED PROJECTS

Blood Donation & Emergency Health Services APP (FYP)

Technologies: C# (API), iOS Swift UI, SQL SMS

- Developed a **SwiftUI-based iOS application** for a blood donation system connecting nearby **donors, donees, hospitals, and blood banks**, with real-time access to blood camps and urgent blood requests.
- Implemented secure and scalable **RESTful APIs using C# (.NET Web API)** with **SQL Server** to manage donor registrations, blood requests, hospital data, and blood camp scheduling.
- Designed and integrated features for **location-based search**, request tracking, and role-based dashboards, ensuring smooth data flow between the mobile front end and backend services.

EDUCATION

Bachelors in Computer Science

| Arid Agricultural University,
Rawalpindi | CGPA – 2.86

SOFT SKILLS

- Communication
- Teamwork
- Critical thinking
- Time management
- Leadership
- Adaptability

CERTIFICATIONS AND AWARDS

- React JS Frontend
Web Developer
- WordPress Developer
