SUMMARY

Results-driven Software Engineer with over 3 years of experience specializing in data analysis, SQL, Microsoft Power BI, and process automation. Adept at testing and integrating tools like Xero and NetSuite using Power Automate and Zapier. Proven track record of building cross-functional automated workflows, developing data-driven dashboards, and executing operational improvements to support business growth.

EXPERIENCE

Software Engineer

Oct. 2023 – Present

Watar Partners International

Islamabad, Pakistan

- Integrate and test enterprise accounting platforms, including Xero and NetSuite, utilizing Power Automate and Zapier to streamline automated workflows.
- Develop and maintain Microsoft Power BI reports and dashboards to visualize complex datasets, ensuring accurate reporting for business decision-making.
- Manage user profiles and cloud applications efficiently through Microsoft Azure.
- Architect and build Model-Driven and Canvas applications via Microsoft Power Apps to ensure seamless, secure database interactions and user experiences.

Manager Operations

Nov. 2022 – Sep. 2023

Nutrirmedz

Islamabad, Pakistan

- Directed daily operations and managed marketing assets, including social media campaigns, to enhance brand presence and customer engagement.
- Analyzed customer feedback to identify areas for operational improvement and implemented effective, data-driven business solutions.
- Negotiated and executed Memorandums of Understanding (MOUs) for the procurement of pharmaceutical supplies, ensuring cost-efficiency and compliance.

EDUCATION

National University of Modern Languages
