SUMMARY

Full Stack Developer with 2+ year of experience specializing in React.js. Expert in translating Figma designs into high-quality, pixel-perfect, and responsive user interfaces. Passionate about building accessible, performant, and dynamic web applications.

WORK EXPERIENCE

BlockMob Labs(FrontEnd Developer) 11/2024 - present

As a Front-End Developer at BlockMob Labs, I build scalable React and Next.js applications by converting Figma designs into responsive UIs, integrating RESTful APIs, and collaborating with designers and backend teams to deliver seamless, production-ready features.

Riayatech (React Intern) 05/2024 - 07/2024

As a Web Developer Intern at Riayatech, I contributed to developing and designing interactive UI components using React.js, Angular, and Bootstrap.

PIA (FrontEnd Intern) 05/2023 - 06/2023

Developed frontends for major modules of the new pia application. (ReactJs, CSS)

PROJECTS

Praidux Developed a complete MERN stack project consisting of two modules: **(1) Landing Page** – built with Next.js, featuring SEO-optimized design and responsive layout for the global tech company Praidux. **(2) Admin Dashboard** – implemented using React.js, Node.js, Express.js, and MongoDB to manage services, projects, and user data efficiently. Focused on creating scalable, maintainable, and production-ready architecture with clean UI and smooth API integrations.

EVOX Designed and developed dashboard and authentication pages using React, MUI, and RESTful APIs.

MAGNUS Designed and developed a responsive and user-friendly UI for Magnus, a decentralized application (dApp) built on the blockchain. Focused on clean layout structure and seamless user interaction using React.

Iltezam Designed and developed fundraising platform with projects and courses. (Next.js, TypeScript, RESTful APIs, MUI)

Gaya Developed the landing page for a blockchain-based web application using Next.js and TypeScript.

TECHNICAL SKILLS

Skills: JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, HTML, CSS, React Query, RESTful API Development, API Integration, Tailwind CSS, Material-UI (MUI), Redux, MongoDB , Git, GitHub, Jira

EDUCATION

2020 - 2024 **BSSE (Software Engineering)**

COMSATS University Islamabad, Islamabad Campus

FYP: *EduCareer* - An intelligent educational platform built with the MERN stack and Flask.

- Engineered features like an Automatic Quiz Generator and AI-powered Career Recommendations.

- **Achieved 2nd Position** in the University-wide Project Expo in the Web Development category.

Technologies: React, Node.js, Express, MongoDB, Flask, Python
