SUMMARY

Computer Science graduate (5x Dean's Honor Award) with hands-on experience across 3 internships building NextJS and React Native applications. Comfortable working across the stack using Firebase and Supabase, with multiple self-initiated projects.

SKILLS

Frontend: NextJS, React Native, Flutter

Backend: SQL Server, Supabase

Others: Github

WORK EXPERIENCE

Flutter Developer Intern, Neusoftix (Pvt.Ltd)

Aug 2025 - Sep 2025

- Developed three Flutter apps: Online Grocery, Expense Tracker, and Copper Bowl, covering real-world use cases like product listing, expenses, and restaurant ordering.
- Built responsive UIs with smooth screen navigation and state management.

Frontend Web Developer Intern, EcodeCamp (Pvt.Ltd)

Aug 2024 - Sep 2024

- Built responsive web applications using HTML, CSS, and JavaScript with cross-browser compatibility.
- Managed all frontend tasks including UI design, component structure, and interface improvements.

Volunteer in Services, Pakistan Girl Guides Association

Feb 2024

- Conducted safety awareness training sessions for students across different age groups using interactive teaching methods.

Computer Science Intern, Pakistan Bureau of Statistics

July 2023 - Sep 2023

- Developed web applications using HTML, CSS, and ASP.NET MVC.
 - Worked with SQL Server to manage and query relational databases.
-

EDUCATION

Bachelors's in Computer Science

March 2022 - Feb 2026

Cust University Islamabad

PERSONAL PROJECT

Glow Haven Essential (E-Commerce Website)

- Built the frontend using HTML, CSS, and JavaScript, developing responsive and dynamic user interfaces.
- Implemented backend functionality using SQLServer.

Wiser Minds Education

- Designed and developed a learning management system
- Built the application using NextJS and Supabase for efficient frontend and backend.

FINAL YEAR PROJECT

StyleSense: Virtual Fashion Styling & Wardrobe Management App

- Built a virtual styling platform in React Native featuring brand catalog, outfit discovery, and virtual try-on functionality.
- Implemented a seller portal with in-app chat, seamless purchasing, and a digital wardrobe system featuring personalized recommendations.
