

SIKANDAR KHAN

Near Jawad Market Street No 2, New Town, Attock City, Pakistan | (+92)3106203050 | sikandarkhan56927@gmail.com | [Sikandar Khan | LinkedIn](#) | GitHub [sikandarkhan09 \(Sikandar Khan\)](#)

Motivated and certified Software Engineer with strong technical skills in [e.g., Python, Java, web development], seeking an entry-level position to apply my training and contribute to real-world software projects in a growth-oriented organization.

EDUCATION

Bachelor of Science in Software Engineering, COMSATS University Islamabad, Attock Campus, Punjab, Pakistan
2022 to 2026

- **Coursework:** Data Structures and Algorithms, Object-Oriented Programming (OOP), Operating Systems, Theory of Computation, Computer Networks, Database Management Systems (DBMS), Software Engineering Principles, Artificial Intelligence (AI), Machine Learning (ML), Web Technologies, Mobile Application Development.
- **Project:** University Automation System (A role-based University Management Desktop Application that streamlines communication, scheduling, and notifications for students, faculty, and administration. It unifies timetable access, automated alerts, direct messaging, and feedback collection to enhance campus coordination and efficiency.)

EXPERIENCE AND CERTIFICATES

Operations Support Officer | Sajid Mehmood and Co. | Kamra

Jan, 2026- Present

- Maintained and troubleshoot IT infrastructure (servers, workstations, networks), ensuring 99%+ uptime for development and test environments.
- Deployed and configured hardware and software testbeds, supporting version-controlled environment setups for repeatable experiments.
- Automated provisioning and routine maintenance tasks using scripts, reducing environment setup time by X% (quantify if possible).
- Managed asset inventory and configuration management, improving traceability and compliance for lab equipment.
- Coordinated cross-functional teams and external vendors to deliver timely lab resources and resolve technical blockers.
- Authored technical documentation and runbooks for environment setup, test procedures, and incident response to speed onboarding and troubleshooting.

Freelancer | Web Developer | Fiverr | Remote

March 2024 – Present

- Designed and delivered 10+ responsive, SEO-optimized websites using HTML, CSS, JavaScript, and Bootstrap.
- Built and customized WordPress and Wix sites, improving client site engagement by up to 30%.
- Coordinated with clients to gather requirements and complete revisions, consistently achieving 5-star ratings.
- Integrated SEO tools, Google Ads, and chatbot automation to boost lead generation and performance.
- Utilized Git, Jenkins, and Docker to streamline deployment workflows across cloud platforms.

IT Internee — Pakistan Aeronautical Complex (PAC) Kamra, Aircraft Manufacturing Factory

Jun, 2025 – Aug, 2025

- Gain hands-on experience in the field of IT in Aerospace Engineering

- Work alongside experienced professionals in aircraft manufacturing
- Strengthening my technical and analytical skills by active participation in daily tasks
- Learn more about real-world IT and software systems working in aviation systems with industrial standards
