SUMMARY

I am a Full-Stack Laravel Developer with 3.5 years of professional experience, actively working with Laravel since August 2022. During this time, I have worked on multiple projects, including billing systems, payment gateway integrations, and third-party API integrations. I have hands-on experience developing Laravel REST APIs, integrating payment gateways such as Stripe and Paystack, and working with Booking.com taxi APIs. I have contributed to building secure, scalable, and performance-optimized applications while handling real-world business logic. I am experienced in working across the full development lifecycle, from requirements analysis to development, integration, testing, and deployment. I am passionate about writing clean, maintainable code and delivering reliable solutions for production environments.
