Projects

المباحث العقدية في ديوان عبد الرحمن بابا

Abdul Rahman Baba is a famous Pashtun poet for more than 400 years. His book is famously known as Dewan of Rahman Baba. I chose his Dewan and collected his opinion in Creed related issues and named it (A research on doctrinal issues in Dewan of Abdul Rahman Baba).

I chose this topic due to many reasons, some of them were

1 I wanted to learn pashto reading and writing

2 Rahman Baba is famous in Pashtun society as a very religious personality but I came across a YouTube video in which an Arab described him in a way which was way far from the way I heard about him so I got interested and chose his Dewan for my research to know and learn about him first handedly.

Conclusion

I learnt that most of his poetry verses in which he either talked or signaled about doctrinal issues were according to Quran and Sunnah and that his poetry can be used in accordance with Quran and Sunnah to teach the youth different religious and ethical subjects.
