## Experience

### June 2025 - March 2026

Safety Compliance Officer

#### Magnus Ventures & Consulting

- Worked with a UK-based supported housing company, developing strong expertise in writing clear, detailed, and professional reports related to residents' care and support.
- Reviewed daily logs and incident reports, edited them for accuracy and clarity, and prepared analytical reports to identify trends and help prevent similar incidents in the future.
- Coordinated daily with managers through Zoom, shared updates, maintained clear communication, and supported effective reporting and operational decision-making across the organization.

### 2022 - Current

Dynamic Clinic

#### Founder

- Worked closely with medical professionals and manufacturers to ensure high-quality, personalized solutions.
- Led fundraising initiatives to provide artificial limbs free of cost to individuals who couldn't afford them.
- Managed operations, marketing, and outreach efforts to grow awareness and expand impact.
- A startup focused on customized braces and artificial limbs.

### 2018 - 2022

Orthopaedic Implant Supply Specialist

#### Self - Employed

- Worked directly with orthopedic surgeons to understand their specific implant requirements, providing customized solutions and ensuring timely delivery of products to meet their needs.

### 2017 - 2018

Sales Engineer Technical

#### EmechKonect

- Identifying new business opportunities, preparing proposals, building customer relationships, delivering technical presentations, and showcasing the benefits of products or services over competitors.

### 2013 - 2016

Lab Engineer

#### UET Taxila - Sub Campus Chakwal

- Taught courses in Mechanics of Materials, Engineering Statics, Engineering Dynamics, and Robotics, while supervising labs in Control Systems, Industrial Automation, Mechanics of Materials, Engineering Mechanics, Instrumentation and Measurements, Digital Image Processing, and Robotics.
