

Khawar Abbas

Anesthesia Technologist

Johar town Lahore, Pakistan | +92-3420147382 | khawarabbas9088@gmail.com

PROFESSIONAL SUMMARY

Anesthesia Technology student with hands-on clinical experience in drug preparation, anesthesia machine management, and anesthesia equipment handling. Skilled in assisting anesthesiologists during spinal and general anesthesia, central venous pressure (CVP) line insertion, and double-lumen catheter (DLC) insertion. Strong background in patient history taking, pre- and post-operative monitoring, and emergency drug preparation. Experienced in ICU care, including vital sign monitoring, airway management, ventilator settings, and CPR/defibrillator use during emergency response.

EDUCATION

Bachelor of Science in Anesthesia Technology 2022 – 2026

The University of Lahore, Main Campus — Lahore, Pakistan

Intermediate (Pre-Medical) 2020 – 2022

Government Post Graduate College — Taunsa, Pakistan

ICU EXPERIENCE

Anesthesia Technologist Intern — ICU Rotation March 2025 – March 2026

Mayo Hospital, Intensive Care Unit — Lahore, Pakistan

- Continuously monitored patient vital signs — blood pressure, heart rate, oxygen saturation, and ECG — and reported abnormal findings promptly to the ICU team.
- Set up and monitored mechanical ventilator settings for critically ill patients, adjusting parameters under clinical supervision as patient status changed.

WORK EXPERIENCE

Anesthesia Technologist Intern March 2025 – March 2026

Mayo Hospital, Emergency and Anesthesia Department — Lahore, Pakistan

- Performed patient history taking and prepared drugs for general and emergency anesthesia cases.
- Assisted senior anesthesia technologists and anesthesiologists during spinal anesthesia, general anesthesia, CVP line insertion, and DLC insertion.
- Monitored patients before, during, and after surgery, and coordinated safe patient transfer to the ward or ICU.

Anesthesia Technologist – Clinical Rotation 2024 – 2025

University of Lahore Teaching Hospital — Lahore, Pakistan

- Completed clinical rotation as part of the Bachelor of Anesthesia Technology program, gaining supervised experience in hospital anesthesia operations.

Anesthesia Technologist – Clinical Rotation 2025 – 2026

Social Security Hospital — Lahore, Pakistan

- Continued clinical rotation with supervised experience in anesthesia department operations and patient care.
